

## 目 次

|  |                       |
|--|-----------------------|
| 太阳能光热转化中金纳米棒流体光学特性的实验研究 .....                        | 杨茜茹, 沈朝, 张春晓, 等(791)  |
| 基于分层控制策略采光实验的电致变色窗研究 .....                           | 王崇敏, 彭晋卿, 罗伊默, 等(797) |
| 考虑气象随机性的太阳能热水系统供能可靠性分析 .....                         | 李啸远, 田喆, 叶创, 等(804)   |
| 基于零能耗约束的拉萨市主被动太阳能组合供暖协同优化设计研究 .....                  | 张亚亚, 刘艳峰, 陈耀文, 等(811) |
| 太阳能烟囱-埋管耦合系统连续自然通风可靠性实验研究 .....                      | 郑迪萌, 龙天河, 叶恺, 等(819)  |
| 西藏高原离网光伏供暖系统容量配置优化研究 .....                           | 张睿超, 王登甲, 刘艳峰, 等(828) |
| 土壤源热泵系统测试与设计方法研究 .....                               | 山占鹏, 杨昌智(835)         |
| 中深层埋管换热器周围岩土热恢复特性 .....                              | 黄帅, 孙苏雨婷, 董建锴, 等(842) |
| 中深层套管式埋管换热器取热性能研究及经济性分析 .....                        | 姜静华, 高远, 张育平, 等(851)  |
| 空气源热泵超疏水抑霜的机理分析及性能研究 .....                           | 何桂香, 谷雅秀, 段佳慧(860)    |
| 户用太阳能-空气源热泵耦合供能系统性能模拟研究 .....                        | 张春枝, 王可, 李涛, 等(867)   |
| 拉萨民居围护结构热工性能的新型评价参数的建立 .....                         | 赵群, 谢一建, 李峥嵘(876)     |
| 极端湿热气候区相变屋顶隔热性能优化分析 .....                            | 景鹏飞, 谢静超, 徐鑫, 等(887)  |
| 内嵌管式相变顶板简化传热模型研究 .....                               | 徐侃, 徐新华, 严天(897)      |
| 热工参数可变的被动太阳能窗研究 .....                                | 贾纪康, 司鹏飞, 戎向阳, 等(904) |
| 双层相变通风屋面的影响因素研究 .....                                | 冷康鑫, 于靖华, 杨清晨, 等(910) |
| 基于不同室外气候条件下蒸发冷却空调系统的性能分析 .....                       | 曾婷婷, 王玉娇, 刘鸣, 等(921)  |
| 严寒地区光伏复合墙体冬季主被动热利用模式研究 .....                         | 曹也, 李辰琦, 周宏敞(927)     |
| 相变玻璃围护结构蓄能特性及对室内热环境影响研究 .....                        | 李栋, 胡宛玉, 张成俊, 等(934)  |
| 自然通风模式及光伏透过率对双层皮幕墙冬季运行特性影响研究 .....                   | 朱静, 马明一, 李丕, 等(939)   |
| 典型建筑能耗模型搭建—以长沙商场建筑为例 .....                           | 潘晓, 陈毅兴, 邓章, 等(947)   |
| 基于可再生能源利用的西北地区幼儿园设计策略研究——以2020年台达杯建筑设计竞赛获奖方案为例 ..... | 李涛, 陈兆哲, 梁瑞, 等(955)   |

(第53卷 卷终)

## CONTENTS

|   |  |
|---|--|
| Experimental study on optical properties of Gold-nanorods fluid in solar photothermal conversion .....  | YANG Qianru, SHEN Chao, ZHANG Chunxiao, et al(791)   |
| Study on layered control of electrochromic window based on daylighting experiment .....   | WANG Chongmin, PENG Jinqing, LUO Yimo, et al(797)    |
| Reliability analysis of solar water-heating system considering meteorological randomness .....  | LI Xiaoyuan, TIAN Zhe, YE Chuang, et al(804)         |
| Optimization design of active and passive solar combined heating in Lhasa based on zero energy consumption constraint .....   | ZHANG Yaya, LIU Yanfeng, CHEN Yaowen, et al(811)     |
| Experimental research on the reliability of continuous natural ventilation of SC-EAHE coupled system .....  | ZHENG Dimeng, LONG Tianhe, YE Kai, et al(819)        |
| The system form and case analysis of off-grid photovoltaic heating in Tibet Plateau .....   | ZHANG Ruichao, WANG Dengjia, LIU Yanfeng, et al(828) |
| Restudy on the test and design method of ground source heat pump system .....   | SHAN Zhanpeng, YANG Changzhi(835)                    |
| Heat recovery characteristics of rock and soil around medium-deep borehole heat exchanger .....   | HUANG Shuai, SUN Suyuting, DONG Jiankai, et al(842)  |
| Research on heat extraction performance of deep coaxial borehole heat exchanger and its economic Analysis .....   | JIANG Jinghua, GAO Yuan, ZHANG Yuping, et al(851)    |
| Mechanism analysis and performance research on super hydrophobic frost suppression of air source heat pump .....  | HE Guixiang, GU Yaxiu, DUAN Jiahui(860)              |
| Performance simulation of household solar-air source heat pump coupling energy supply system .....  | ZHANG Chunzhi, WANG Ke, LI Tao, et al(867)           |
| Establishment of new evaluation parameters for thermal performance of Lhasa residential building envelope structure .....   | ZHAO Qun, XIE Yijian, LI Zhengrong(876)              |
| Optimization analysis of thermal insulation performance of phase change roof in extreme hot-humid region .....  | JING Pengfei, XIE Jingchao, XU Xin, et al(887)       |
| Study of the simplified heat transfer model of a pipe-embedded phase change material (PCM) slab roof .....  | XU Kan, XU Xinhua, YAN Tian(897)                     |
| Development of passive solar window with variable thermal parameters .....  | JIA Jikang, SI Pengfei, RONG Xiangyang, et al(904)   |
| Study on the influencing factors of double-layer phase change ventilation roof .....  | LENG Kangxin, YU Jinghua, YANG Qingchen, et al(910)  |
| Performance analysis of evaporative cooling air-conditioning system under different outdoor climate conditions .....  | ZENG Tingting, WANG Yujiao, LIU Ming, et al(921)     |
| Study on active and passive heat utilization mode of photovoltaic wall in winter in severe cold area .....  | CAO Ye, LI Chenqi, ZHOU Hongchang(927)               |
| Energy storage characteristics of phase change glass envelope and its effect on indoor thermal environment .....  | LI Dong, HU Wanyu, ZHANG Chengjun, et al(934)        |
| Study on effect of natural ventilation mode and photovoltaic transmittance on the performance of double-skin façade in winter .....   | ZHU Jing, MA Mingyi, LI Pi, et al(939)               |
| Development of prototype energy model: A case study of shopping mall buildings in Changsha .....  | PAN Xiao, CHEN Yixing, DENG Zhang, et al(947)        |
| Research on green kindergarten design in Northwest China based on renewable energy utilization: Taking the award scheme of 2020 delta cup international solar building design competition as an example ..... | LI Tao, CHEN Zhaozhe, LIANG Rui, et al(955)          |
